

### quickfit product info

Canopy Width	Number of Legs	Eaves Beam Lengths
8ft	2	1 x 8ft
10ft	2	1 x 10ft
12ft	2	1 x 12ft
14ft	3	2 x 7ft
16ft	3	2 x 8ft
18ft	3	1 x 10ft, 1 x 8ft
20ft	3	2 x 10ft

It is possible to order longer legs if required, extension kits maybe also be required to increase the

widths of carports to position legs & guttering correctly. Please call or email if you need any

assistance.

The multi purpose canopy system from Canopies Southwest is attractive, cost effective, easy to

install and ideal for a wide range of commercial and domestic applications.

Uniquely designed for speed of installation with a durability and finish, which will last for years.

The multi purpose canopy combines the strength of aluminum with the benefits of multi-wall

polycarbonate sheeting.

The pre-assembled panels are lightweight and cleverly interlock together making installation in

even the most exposed areas safe and simple. Multiple panels can be installed to almost any width

required.

Multi purpose canopies can be used in domestic, industrial, commercial, educational, local

authority and leisure applications.

Quick and easy to install

An attractive and cost effective solution

To meet the demands of today's lifestyle, the living space multi purpose canopy is specifically

designed for speed of installation, whilst offering maximum strength. It provides an attractive and

cost effective long-term solution for all your domestic and commercial roofing applications.

Enhance and add value to your property

The multi purpose canopy will enhance and add value to your property offering a desirable and

functional shelter, whilst giving the benefit of a long-term low maintenance structure. By using

shatterproof polycarbonate sheeting you also remove the risks associated with glass

Can be erected in less than a day

One of the major benefits of the multi purpose canopy is the speed of installation. This is

achieved with our unique pre-assembled panels which interlock together. These panels are

lightweight, safe to handle and ensure that installation time is reduced. The multi purpose canopy

can be erected and ready for use in less than a day!

Planning and design made easy – no wastage

The modular sizes of the pre-assembled panels make planning and design easy with minimal

## quickfit product info

wastage. The excellent light transmission makes the panels ideal for replacement roof glazing

applications.

Twin wall polycarbonate glazing- the safe alternative to glass

Virtually unbreakable and shatterproof, polycarbonate sheeting gives protective cover whilst

allowing good light transmission.

Comes with a 10-year guarantee to give peace of mind.

Virtually unbreakable

Panels are glazed with either 10mm twin wall or 16mm triple wall polycarbonate sheeting in a

choice of colours.

Strong and adaptable

Panels require no intermediate supports. Multiple panels can be installed to almost any width

required.

Long term maintenance free

Multi wall polycarbonate sheets are shatterproof and unbreakable in normal use. The aluminum

frame is powder coated to a high quality finish making the product virtually maintenance free.

Wide range of sizes

Standard panels and frames are available in a wide range of sizes with a choice of polycarbonate

sheet colour.
